BROUGHT BY THE CIE

- 1 circle of artificial turf of 5mx5m
- 1 circle of puzzle matting of 5mx5m
- 1 protection mat of 5mx5m
- 1 gas tank
- 1 wooden stick
- 3 portable speakers
- 2 normal speakers
- 1 grass costume

CONDITIONS FOR REPRESENTATION

We would prefer to perform during the evening or the end of the afternoon. However, we can also perform during the day, given that the stage is located in a shaded area, due to the excessive heating of the fake grass by the sun.

We cannot perform in case of heavy rain. In case of dangerous climatic conditions, the decision to perform or not will be taken by the organizer in consultation with the artists.

Here is an example of an ideal location for the show. It has a flat stage area and the public cannot easily pass behind the stage, but there is still enough depth for us to evolve in the space.

PROVIDED BY THE VENUE

- Access to warm water near the performing spot
- Access to electricity for the sound system
- Washing machine for more than one day of performance

NB OF SHOWS/DAY

2 shows maximum with 2 hours in between
